

Cyber-attacks on European subsidiary of Daihatsu Diesel

The European subsidiary company of DAIHATSU Diesel group has experienced a problem in accessing its file server in the internal system on 14 May 2021. After a brief investigation, a cyber attack by an unauthorised access from a third party was confirmed as a cause of this issue. The company has immediately shut down all networks and systems to prevent any further damage, and reported the authorities. Also the company has already started to build the investigation and countermeasure with external cyber security specialist and IT support company. In addition, we have verified that there are no further unauthorised access or problems in other companies of the Daihatsu Diesel Mfg. Co. Ltd. Group.

We would like to express our sincere apologies for the inconvenience and concern caused to our customers and other stakeholders.

Further announcements would be made through the website as soon as new information is available.
