

Allianz Risk Barometer

Results appendix 2022

Based on the insight of 2,650 risk management experts from 89 countries and territories

- 02 The most important business risks: global
- 04 The most important business risks: Europe, Americas, Asia Pacific, and Africa and Middle East
- 32 The most important business risks: industry sector
- 40 The most important business risks: company size

The most
important
business risks
in 2022:
global

The most important business risks in 2022: global

Ranking changes are determined by positions year-on-year, ahead of percentages.

Rank		Percent	2021 rank	Trend
1	Cyber incidents (e.g. cyber crime, IT failure/outage, data breaches, fines and penalties)	44%	3 (40%)	↑
2	Business interruption (incl. supply chain disruption)	42%	1 (41%)	↓
3	Natural catastrophes (e.g. storm, flood, earthquake, wildfire, weather events)	25%	6 (17%)	↑
4	Pandemic outbreak (e.g. health and workforce issues, restrictions on movement)	22%	2 (40%)	↓
5	Changes in legislation and regulation (e.g. trade wars and tariffs, economic sanctions, protectionism, Brexit, Euro-zone disintegration)	19%	5 (19%)	→
6	Climate change (e.g. physical, operational, financial and reputational risks as a result of global warming) ¹	17%	9 (13%)	↑
7	Fire, explosion	17%	7 (16%)	→
8	Market developments (e.g. volatility, intensified competition/new entrants, M&A, market stagnation, market fluctuation)	15%	4 (19%)	↓
9	Shortage of skilled workforce	13%	13 (8%)	↑
10	Macroeconomic developments (e.g. monetary policies, austerity programs, commodity price increase, deflation, inflation)	11%	8 (13%)	↓
11	Loss of reputation or brand value (e.g. public criticism)	10%	12 (9%)	↑
12	New technologies (e.g. impact of artificial intelligence, connected/autonomous vehicles, electric/fuel cell vehicles, 3D printing, Internet of Things, nanotechnology, blockchain, 5G) ²	9%	11 (9%)	↓
13	Political risks and violence (e.g. political instability, war, terrorism, civil commotion, riots and looting) ³	9%	10 (11%)	↓
14	Critical infrastructure blackouts (e.g. power disruption) or failures (e.g. aging dams, bridges, rail tracks)	9%	15 (5%)	↑
15	Product recall, quality management, serial defects	6%	16 (5%)	↑
16	Theft, fraud, corruption	5%	14 (7%)	↓
17	Environmental risks (e.g. pollution)	4%	17 (5%)	→
	Other	3%		

Source: Allianz Global Corporate & Specialty

¹ Climate change ranks higher than fire/explosion based on actual number of responses

² New technologies ranks higher than political risks and violence based on actual number of responses

³ Political risks and violence ranks higher than critical infrastructure blackouts based on actual number of responses

Key

↑ Risk higher than in 2021

↓ Risk lower than in 2021

→ No change from 2021

(5%) 2021 risk ranking %

The 11th annual Allianz Risk Barometer survey was conducted among Allianz customers (global businesses), brokers and industry trade organizations. It also surveyed risk consultants, underwriters, senior managers and claims experts in the corporate insurance segment of Allianz Global Corporate & Specialty and other Allianz entities.

Figures represent the number of risks selected as a percentage of all survey responses from 2,650 respondents. All respondents could select up to three risks per industry, which is why the figures do not add up to 100%.
